Spectrum Glass Color Suggestions

- | | |
|-----------|------------------------|
| A. 305s | "Pearl White" |
| B. 329-6s | Dark Green/White wispy |
| C. 359-1s | Red/White wispy |

Instructions:

1. Cut four pieces of glass for each pattern piece (this is a 4 panel lamp).
2. Use 7/32" or 3/16" copper foil. Construct 4 separate panels individually; finish soldering all interior seams to completion.
3. Prop-up completed panels on a flat surface so that lamp shade is evenly formed and tack them solidly together. Then finish soldering seams.
4. Solder 2-5/8" square vase cap onto top of shade.
